

SAPPHIRE ANTI-REFLECTIVE GLASS FOR RETAIL SHOWCASES

Reduce the visual noise from your showcases by choosing **Sapphire anti-reflective glass**. It removes distractions and adds an inviting quality to your displays.

+ 63 seconds -

The average time spent at Sapphire AR glass displays vs regular glass displays*

**CHOSEN BY TOP RETAILERS
AROUND THE WORLD**

SUPREME QUALITY

Because reflections are removed, products behind Sapphire anti-reflective glass have a luxurious and inviting appearance.

MAXIMUM PRODUCT VISIBILITY

By eliminating the surrounding reflections, Sapphire anti-reflective enhances the visibility of retail showcases and displays.

INCREASED CUSTOMER ENGAGEMENT

In an environment of visual noise, displays fitted with Sapphire AR glass are like an oasis for the eyes, making the customer feel more at ease, relaxed and engaged.

* Field study conducted by Academia (independent research company) in a jewelry store in Riga, Latvia.
